

PRO SKID-E

Evacuation/transport chair

Pro Skid-E stair chairs are devices to be used to move and bring a patient into a sitting position to the ambulance, but not to be used for transporting the patient inside the ambulance. They are equipped with slides that assist the descent of the stairs in order to reduce the fatigue required by the operator during the transfer of patient and chair. They must not be used for parking.

Specific features

- Easy to clean PVC sheet
- Slides allow easy movement and control going down and upstairs
- Telescopic front handles make handling easier
- Footrest
- Front pivoting wheels with brakes
- Large diameter rear wheels increase sliding action
- Headrest sheet is movable making the device suitable for patient of different heights

Standard equipment

- Two black belts

Accessories

- | | |
|----------|--|
| SK21000E | Skid/Pro Skid transport bag/dust cover |
| SK14000B | Wall bracket for Skid/Pro Skid |

Technical data

Width	550 mm
Length with closed handles	1110 mm
Length with opened handles	1450 mm
Height with opened backrest	1600 mm
Height with closed backrest	1070 mm
Thickness closed	330 mm
Weight	14,2 kg
Maximum load capacity	150 kg
Materials	Al, PVC, PP,PU
Front wheels	Ø 100 mm
Rear wheels	Ø 200 mm

Dimensions and weights are subjected to tolerances of ± 10 mm and ± 1 kg.

Class I MD compliant with UE Reg. 2017/745
